

Movement and Play Policy

(This policy is provided as a sample only. Please revise and amend to suit the needs of your agency.)

Rationale

We want to increase the availability and use of safe places to play and be physically active for all young children and their families. **Physical Activity is fun and good for everyone!** Providing physical activity opportunities for employees improves their ability to role model and encourages clients to adopt healthier lifestyles.¹

For young children active play...

- **Supports growth for young children and encourages lifelong healthy behaviors**
- Promotes healthy weight and reduces the risk of chronic disease
- Promotes physical motor development, increases self-esteem, and helps with cognitive skills such as reading and writing.
- Sets the stage for reduced screen-time.

For adults movement and physical activity...

- Improves performance at work and school
- Improves mood and mental health
- **Models healthy behavior for young children and others**
- Reduces risk for chronic diseases and the need for associated medical costs (*People that engaged in moderate levels of physical activity have lower direct medical costs than those who are inactive.*
